The Company

Haemonetics (NYSE: HAE) is a global healthcare company dedicated to providing innovative blood management solutions for our customers. Together, our devices and consumables, information technology platforms, and consulting services deliver a suite of business solutions to help our customers improve clinical outcomes and reduce the cost of healthcare for blood collectors, hospitals, and patients around the world. Our technologies address important medical markets: blood and plasma component collection, the surgical suite, and hospital transfusion services.

The Challenge

Haemonetics needed to find a high-quality location close to its Braintree headquarters where clients could visit to get the first hand knowledge of its distribution operations. They occupied a facility in Avon that was close in proximity but poor in image and quality.

The Results

FHO Partners were able to identify multiple locations from which several finalists were selected. We leveraged Haemonetics' credit amongst the different candidates and negotiated a long-term lease at 155 Campanelli Parkway which had easy access to their headquarters building.

“We are very happy with the convenient access as well as the high-quality that our new location provides us.”

Bob Pice
